# CENTRAL DAUPHIN RAMS BASKETBALL

*“Excellence through Attitude and Hard work”*

## CORE VALUES

### ON THE COURT

*Play hard* every day in practice and games – every second we are on the court, we are fanatical about playing hard.

Play with great *Toughness* every day – mental toughness (handling adversity, fighting through fatigue, maintaining concentration level, accepting criticism) and physical toughness (relishing contact, being strong with the ball, diving for loose balls, going toe-to-toe with physical teams).

Play *Together* – Unselfish basketball – Make the Extra pass – Keep the ball swinging – Recognize the Hot Hand – Support our teammates – Give up a part of ourselves to be part of something much bigger and more fulfilling.

Play *Smart* – Play within our offensive and defensive philosophies – Play fundamentally sound basketball – Play with a purpose and execute our game plan – Be a team that does not beat itself.

### OFF THE COURT

Conduct ourselves with *Class* – at school – in the locker room, with the media, in the classroom, on the road, and in our community. Everything we do and say reflects on us as individuals and on our program.

## CENTRAL DAUPHIN RAMS BASKETBALL

*“Excellence through Attitude and Hard work”*

### *“BURN YOUR BOATS”*

In 711, Tariq ibn Ziyad from North Africa was encouraged by the people of Spain to liberate them from their oppressive ruler, King Roderick. Landing at Gibraltar, Tariq's army of 12,000 stood against 60,000 Spaniards, outnumbered 5:1.

With his back to the Mediterranean Sea and a seemingly overwhelming force in front of him, Tariq gave the unthinkable order to his men – “BURN YOUR BOATS” – his army's only means of escape!

Tariq then delivered an inspiring speech about the end goal, victory, and how they would achieve it. His speech and vision of victory rallied his troops to total commitment to the job at hand. Like all great leaders, Tariq led the charge himself, to victory, one of the most amazing military upsets in human history.

Tariq's strategy of burning his boats did three things.

Every man bonded together and committed themselves to the victory or death.

It caused his men to focus totally on the job at hand.

What sort of crazy men burn their boats in the face of adversity? Only men committed to victory, that's who. The Spanish saw this and confidence dissolved.

Are you willing to “Burn your Boats” for the good of the team? Or, are you like most people, with one foot on land, and the other in the boat ready to retreat?

We must be a team with every single individual completely committed to the task at hand, and completely committed to the good of the team over any individual honor. We must worry only about ourselves and not the opinion of those who know nothing of our struggle or our commitment to each other. Only those willing to “Burn Their Boats” will be allowed to Ride in our Victory Parade!
